

# Take control

## **The Wilevco Integrated Coating System (WICS)**

automatically stores, heats or cools, feeds, and applies glazes, butters, sorbate/mold inhibitors, egg washes, and other coatings – even with particulate up to 1/4”.

## **Take control with Wilevco.**

See the system in action at , Wilevco Booth 109.

Makers of innovative food coating, batter mixing and temperature control systems.
