Belt Grill Contact Cooking Systems

Uniform, double-sided contact cooking
of all types of products.

HiTec Belt Grill Contact Cooking Systems

HiTec Belt Grills precisely and uniformly fry and cook both the top and bottom of products in a single pass, increasing efficiency and production.

Sample Applications

- Paninis
- Grill Cheese Sandwiches
- Buns and Rolls
- Quesadillas
- Arepas

- No open flame – heated electrically or with thermal oil
- Single pass – top and bottom
- Available in multiple widths – mate with upstream and downstream equipment
- Also available with grill marks
