Waterfall Applicator

Coat and glaze
quickly, easily,
and efficiently.

MCI Waterfall Applicator

Sample Applications

- Hand Pies
- Empanadas
- French Toast
- French Toast Sticks

Efficient

The MCI Waterfall Applicator is designed to quickly and easily apply coatings and glazes to bakery products. The line is highly efficient, ensuring greater productivity and consistency in your coating process. The Waterfall Applicator features a cascade system to completely coat your product plus blowers to remove excess coating and provide perfect, uniform results.

Range of Sizes

MCI Waterfall Applicators are built using a modular design. The machines are available in multiple widths to suit your production requirements.
